ZEROMAX CUBO (L7e-CU quadricycle)

ZEROMAX CUBO is the new **ultra-compact electric vehicle for the transport of goods** in the L7e-CU category, with **PICKUP** and **VAN** versions. Also available in the **NAKED** version, to be adapted to the most varied uses with special dedicated fittings.
Compact for parking and with the agility of a vehicle which is only 120cm wide, but that can carry euro pallet-sized loads, up to 499kg.
Three battery sizes available for extraordinary ranges of up to over 300 kilometers and 65 km/h top speed.
The urban worker's dream car, it is not just a vehicle, it is your electric assistant, agility expert in urban traffic, ideal for traveling anywhere in the modern world.
Perfectly designed for sustainable and agile urban operations, this compact wonder is the answer to all your logistic needs. Whether you are handling deliveries in the city, orchestrating industrial logistics or even working on the maintenance of large green spaces, ZEROMAX CUBO is your go-to companion.
With its sleek design and electric sparkle, it's time to outsmart the urban jungle and green your operations. Get ready to redefine work, intelligently and ecologically, with ZEROMAX CUBO: your solution for a brighter and more efficient future.
